

Junior Scientist – Molecular Biology (m/f/d)

About JLP Health GmbH

The Austrian biotech startup company JLP Health GmbH, founded by Prof. Josef Penninger and colleagues, employs cutting edge functional genomic technologies that enable the development of rational drugs to combat viral infections, cancer and other diseases with high unmet medical need. Based on our unique genetic screening platform we develop a diverse project portfolio and strive to move our findings to the clinics. JLP Health has subsidiaries in Germany and China and is imbedded in a vibrant R&D environment.

Position

Currently, we are looking for a highly motivated junior Scientist with experience in Molecular and Cell Biology to join our dynamic and highly collaborative team in Vienna. The successful candidate will employ genetic and biochemical techniques to strengthen our drug target discovery engine and drive R&D projects.

Main Responsibilities

- Conceptualize, develop and execute projects from idea to preclinical development in cross-functional teams
- Design and implement genetic and biochemical strategies for target identification and validation
- Contribute to the establishment and execution of cell-based assays
- Deep dive into project-specific literature
- Master documentation, data analysis, and project presentations

Qualification & Skills

- PhD in Biochemistry, Genetics or related field
- Hands-on experience in virology, cancer biology, or genetics is required
- Project management experience is a plus
- Experience with international collaborations is a plus
- Experience in clinical and translational research is a plus
- Solution-oriented, persistent personality with an independent and well-structured working style
- Fluent in written and oral English.
- **Spirit to drive a project and succeed in a dynamic and highly collaborative startup atmosphere**

The minimum monthly gross salary amounts to 3076,79 € based on fulltime (40 hours per week), but a higher salary is possible depending on the experience and fit of the candidate.

If you are interested to be part of a young and growing team, please send your application, containing a detailed CV and a cover letter as single pdf file to office@jlphealth.com. For more information on JLP Health, please visit www.jlphealth.com.
